Are You Sleeping In A Safe Place? How to detect and protect yourself from Geopathic Stress	18

Dear friends

Welcome to what I believe is the most powerful range of natural health products, helping you to deal with and prevent most health problems. All the products work on their own or in conjunction with both complementary and orthodox treatments.

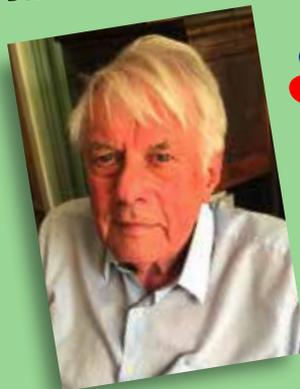

This unique range of products have all been field tested on humans for at least 10 years and shown to have no side-effects. The first thing you must take into account is **Geopathic Stress**, discovered about 85 years ago and which millions of people worldwide, including thousands of doctors, now recognise **is the only common factor in most cases of serious and long-term illness both physically, mentally and when babies are born with defects.**

Not only will you feel far more healthy when free of **Geopathic Stress**, but if you are having any treatment this will work much better. Gradually many doctors and nurses now realise orthodox and complementary medicines must work in tandem to obtain the best results.

Our products are very successful in treating pets and farm animals. We endeavour to dispatch 95% of all your orders within 24 hrs for next day delivery (UK); Europe: 2-5 days. Over the last 35 years our products have been exported to more than 45 countries worldwide. You can also buy our products through your health practitioner/therapist.

In the meantime keep healthy and fit by staying free from the effects of **Geopathic Stress** and **Electro Pollution**. Prevent **dangerous micro parasites**, take the **extra minerals** and **vitamins** modern food no longer provides and **exercise** each day on a **Rebounder**, and take **OxyTech** to give you a healthy gut and a happy you.

Best wishes

Rolf Gordon

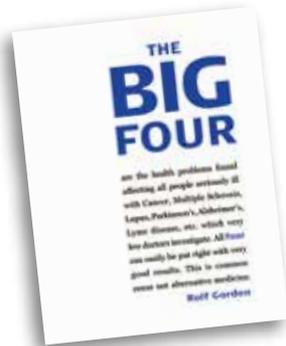

Dulwich Health founder now retired

Make sure you get your FREE copy, of Rolf Gordon's booklet 'THE BIG FOUR'

The book quickly explains 'THE BIG FOUR' health problems found affecting all people seriously ill with Cancer, MS, Lupus, Parkinson's, Alzheimer's, Lyme disease, etc. which very few doctors investigate. All four can easily be put right with very good results. This is common sense not alternative medicine.

See page 18 for all our other recommend books.

NEW Meet the plastic free deodorant!!

It's the same as the Salt of the Earth Classic crystal deodorant but coming in a cardboard box instead of a plastic case. Ideal for people looking to avoid plastic packaging! The natural crystal comes in an easy to handle shape, just take it out of its box to use.

RadiTech Neutralisers

For Geopathic Stress & Electro Pollution

Geopathic Stress has been found to be the only common factor in most serious and long term illnesses, psychological conditions, and when babies are born with defects. This was confirmed by the medical profession over 80 years ago

For over 35 years, tens of thousands of RadiTechs have been sold all over the world to and recommended by medical practitioners and individuals.

The RadiTech has continuously been improved to cope with the increase in **Geopathic Stress**, as the sun's effect on earth has become more powerful due to the continuing weaker ozone layer. RadiTechs now also deal with the electro pollution and rock formation under buildings with **Geopathic Stress**.

Thousands of medical doctors and therapists now confirm that any **Geopathic Stress** (GS), must be cleared before any treatment can be 100% successful.

What is Geopathic Stress?

Geopathic Stress is the earth's natural vibrations which rise up through the earth and are distorted by weak electro-magnetic fields created by subterranean running water, certain mineral concentrations, fault lines and underground cavities. The vibrations disturbed in this way become harmful to living organisms.

The most common indications of GS are:

Resistance to medical treatment, a feeling of being run-down and exhausted, depression, nervousness, loss of appetite, pallor and allergies to food, affected by electricity and not absorbing the necessary vitamins and minerals. Not wanting to go to bed and when in bed: insomnia, restless sleep, feeling cold, cramps, tingling in arms and legs, sleep walking, grinding of teeth, nightmares and fatigue and muzzy head in the morning. Children are often bed wetting and babies continuously crying.

Psychological conditions

GS is present in the majority of people who are depressed, suicidal and about 80% of people who get divorced (one or both spouses).

Answer to sceptics

Many feel the effect of GS is purely psychological and due to suggestion, but then you cannot influence the behaviour of animals, plants and babies.

Most animals will seek to sleep in a good place and will become ill if forced to live in a GS home, stable, etc.

Most types of trees will have stunted growth and not bear fruit in GS places.

The majority of babies who cry continuously during the night, sleep peacefully immediately their cot is moved into a GS-free place.

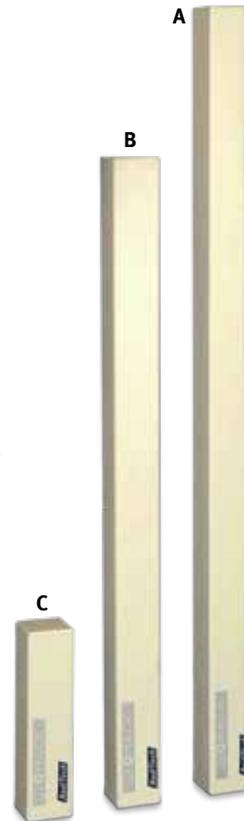

Sick Building Syndrome

Many stressful jobs are mainly caused by Geopathic Stressed and Electro Polluted buildings, cause a high rate of absenteeism and in farm buildings a higher death rate among animals.

Electro Pollution

Electro Pollution has been called the silent killer of the modern age. Not only do we have to deal with more electrical underground cables, overhead pylons and transformers to cope with our increased use of electricity, but our bodies now have to endure increased Electro Magnetic Fields

(EMF) from computers, Broadband, mobile phones, cordless telephones, wireless laptops, microwave ovens, televisions, mobile phone masts, vehicle navigation systems, etc.

RadiTech 100% Risk-Free Guarantee

If for any reason you're not 100% satisfied with your RadiTech, simply contact us during your first 30 days, then send the RadiTech back in the same condition as you received it, and we'll refund your money, no questions asked.

G-Oyster

Pocket Size RadiTech/Geomack G-Oyster

To shield yourself against Geopathic Stress and Electro Pollution at home, at work or on the move, you can wear a G-Oyster all the time.

Powerful energy detoxer which will make you:

- ✓ **Feel more energetic**
- ✓ **Sleep better**
- ✓ **Feel stress-free**
- ✓ **Not stressed by other people**

The G-Oyster will protect you - including children - where you sit, rest or sleep; at home, in the office, supermarkets, public buildings including schools and hospitals; in cars, on public transport and aeroplanes (prevent jet lag) - wherever you are 24 hours a day.

The G-Oyster can be carried in your pocket or hung inside your trousers or skirt, in the pouch the G-Oyster comes in, from your belt, buttons or on a cord across your body from your shoulder. Put it in your handbag or rucksack, if they are next to you all the time. You can also have it with you in bed, under your pillow.

Take the G-Oyster with you on holiday and business trips, in your car to be more refreshed on your journey. Protect yourself against stress and people you meet.

Placing the G-Oyster against a painful part of your body will often relieve the pain.

If your bed is Geopathically Stressed, you would need one of the RadiTechs opposite.

Vortex Water Energiser

Bringing Water Back to Life

When attached to the domestic water inlet pipe, the Vortex Energiser energises all the water in the building constantly. Ordinary lifeless tap water becomes charged and healthy again, with a vitality much better than bottled water and regains a remarkable natural quality and taste.

The Vortex Energiser contains highly energised water which has been prepared using an innovative process called implosion, involving spinning the water very fast. The effect lasts for many years, due to the spiral shape. Many people experience a reduction in the taste of chlorine and hardness after fitting a Vortex Energiser, suggesting chemicals are transformed into a state less harmful to humans. Drinking the energised water strengthens the body's own defences and makes the body cope much better with the detrimental outside effects stemming from pollution, chemicals and electro-magnetic radiation, which normal water treatment processes cannot eliminate.

The Vortex Energiser will energise your central heating system, fridge and freezer (improving taste and prolonging the life of food and drinks). Also for car cooling systems, garden ponds and swimming pools (only need to be 24 hrs in each case before connecting the Vortex Energiser to your water supply permanently).

The Vortex Energiser is also very good for office, industrial and farm applications. Many scientific tests and testimonials have proven the positive effect the Vortex Energiser has on water.

Greenhouse plants have shown to require less food, become healthier and increase in yield.

We humans consist of over 70% water. It is therefore vital to have healthy 'living' water to sustain us.

Dogs and cats who previously would not drink tap water, will suddenly drink it.

Attached to the domestic water inlet pipe, energises all the water in the house - instantly and constantly.

OxyTech

Advanced Oxygen Technology

For candida, bloated stomach, irritable bowel, leaky-gut, skin disorder, continuous constipation or diarrhoea and lack of oxygen and energy

This is a uniquely formulated colon conditioner which is fast acting and is scientifically designed to work gently, safely and effectively without bulky fibre, chalky taste or harsh side-effects.

OxyTech breaks debris in the colon into very small pieces that can be easily and gently eliminated. A clean and healthy colon can lead to more effective absorption of vitamins, minerals and nutrients.

Oxygen levels increase in your blood within 30 minutes of taking OxyTech.

Questions often asked:

How long can I take OxyTech? "One should never advise people to take any supplement forever. I have taken on average 4 OxyTech capsules per day for about 20 years and could not do without them to regulate my digestive system and give me more energy." **Rolf Gordon**

Could the Magnesium in the OxyTech be too much for me?

Magnesium is vital to enable your body to function properly and is very good for you. The majority of the Magnesium is used up creating the oxygen. OxyTech is perfect for getting a good "flow" through your colon and in the process releases any debris in the colon collected over the years.

Can I take OxyTech with such and such medicine, antibiotics, steroids, homoeopathic remedies etc.? I jokingly say 'can you breathe when you take these medicines etc.?' OxyTech can be taken with everything and is particularly good if you take antibiotics, which may damage some good digestive bacteria that love OxyTech.

How does OxyTech compare with a Colonic Irrigation and Coffee Enemas? OxyTech will not only benefit your complete digestive system, but will also give the whole of your body more oxygen on a continuous basis. A Colonic Irrigation will only clean out your colon. Coffee Enemas are suppose to clean out your whole digestion system, but both methods are cumbersome to carry out and need to be administered on a regular basis.

Is OxyTech a Laxative? Laxatives irritate your bowels to make them forcefully expel. They are habit forming and they stretch and expand your colon unnecessarily. On the contrary, OxyTech regenerates your colon lining, so that it functions normally.

Do I need to re-colonise my Intestines? You need to reintroduce beneficial friendly bacteria into your intestinal system now that you

have revitalised and cleansed your colon. I would therefore highly recommend you take a course of Bio-Culture capsules, which contain 4 billion beneficial bacteria in each capsule. This is particularly important if you have taken antibiotics, as they may have killed off many of your friendly bacteria.

Can children take OxyTech? OxyTech is ideal for any age children who are constipated or are taking antibiotics. If the child is too small to swallow capsules, the contents from a capsule can be spread on food, mixed in a smoothie etc.

What time of day shall I take OxyTech? Take last thing at night, a few hours after your last main meal. Also try taking an OxyTech capsule with your main meal, to ensure your calories burn better, so your body gets the maximum benefit from your food.

If I get food poisoning? Take a large dose of OxyTech (say up to 10 capsules) as soon as possible.

How do I deal with constipation? Increase the nightly dose of OxyTech until constipation has been solved, then bring dosage back to a maintenance dose after 7 days. This keeps your system regular.

Will OxyTech help with my candida and/or other digestive problems? One of the main causes of candida is the frequent and prolonged intake of antibiotics, both direct and indirect through the food chain from antibiotics given to farm animals or from you taking steroids such as cortisone and the contraceptive pill.

But my baby has colic? If you are breast feeding, you can take OxyTech to regulate your body. If bottle feeding give baby powder by teaspoon mixed in a smoothie etc.

OxyTech is certified Gluten Free and suitable for Vegans and Vegetarians. Capsule shells contain no animal ingredients. OxyTech is also Kosher product. Manufactured in the USA.

AlliTech

Nature's Very Powerful Antibiotic, Anti-parasitic, Anti-viral, Anti-fungal and Immune Booster.

AlliTech is a patented product, Allisure®, containing 100% stabilised Allicin created from extracts of Allinase and Alliin in garlic. This has proved for over the last 18 years to be very successful in treating 90% of viruses, which are mainly caused by micro parasites. Antibiotics have little affect on viruses.

AlliTech

Micro Parasites Diseases caused by micro parasites have now reached epidemic proportions and are one of the most under diagnosed and under appreciated health threats in the world. Doctors do not, as a general rule, check for micro parasites, as you mainly need a dark field micro-scope, of which there are very few in the UK.

Antibiotics have become less and less effective due to their over prescription for many years, thereby giving bacteria the chance to grow stronger and resist treatment, so more powerful antibiotics are used, often resulting in many side-effects. Antibiotics are also sometimes given for viruses on which they can seldom destroy.

The Government's Chief Medical Officer, Professor Dame Sally Davies, said "The resistance to antibiotics is a ticking time bomb. Routine operations such as hip replacements, could become fatal in just 20 years time, if we lose the ability to fight infections with antibiotics".

No new type of antibiotics have been developed for over 30 years.

It is very important to take AlliTech if you are being treated for serious illnesses such as AIDS, Cancer, Hepatitis, MRSA Infection, Tuberculosis etc., to ensure that your immune system is not damaged by any treatment.

In my opinion, AlliTech is the most powerful immune booster when you are seriously ill.

AlliTech works very quickly on domestic and farm animals.

See our website for more **AlliTech** case histories. dulwichhealth.co.uk

AlliTech can be used to treat:

Acne	Leg Ulcers
Animal Bites	Lupus
Asthma	Lyme Disease
Athlete's Foot	Micro Parasites
Bed Sores	Mouth Ulcers
Bladder Infection	MRSA
Blood Pressure	Nappy Rash
Boils	Peptic Ulcers
Candidiasis	Pneumonia
Canker Sores	Psoriasis

Pharma Nord

High Quality Food Supplement Products Manufactured under Pharmaceutical Control

Pharma Nord is one of the leaders in the field of developing highly effective food supplements ensuring their Bio-Series has turned into a worldwide success. Each product is specially formulated to ensure they are easier for your body to digest than most other products.

“Nature looks after your body until you are 30. From then on you have to look after it yourself”

Pharma Nord

Bio-Selenium & Zinc

British soils are low in selenium. As a result the average daily intake from food is only 31 mcg, whereas W.H.O. recommends 50-200 mcg. Selenium is a very important antioxidant, being the body's natural defence against free radicals, which are believed to contribute to the development of heart conditions, cancer, arthritis, allergies and the ageing process. Initial clinical trials have shown selenium can reduce the chance of getting cancer by 50%. The selenium in Pharma Nord's tablets are the most easily absorbed L-Seleno-methionine. Bio-Selenium comes in tablets containing 100 mcg Selenium, 15 mg Zinc, 750 mcg Vitamin A, 2 mg B6, 90 mg C & 15 mg E.

Bio-Magnesium

Is vital to enable your body to function properly. Deficiency, due to modern processing, refining and additives in our food, can cause heart problems, migraines, PMS, fatigue, IBS, high blood pressure, asthma, back pains etc. Magnesium enables the body to absorb calcium.

Bio-Vitamin E

Contains d-alpha - tocopherol, nature's own type of Vitamin E, the most powerful and active variety. Vitamin E is a powerful antioxidant forming a protective shield around the cell and protects against free radical attacks. Vitamin E regulates the function of Coenzyme Q10, both of which are very good for all heart problems.

Bio-Pycnogenol

Is a natural chemical extracted from the Pinus Pinaster tree. This biologically active compound helps to keep the skin young and supple. The active flavonoids in Pycnogenol work as a very powerful anti-oxidant, this enables the body to absorb 20 and 50 times more Vitamins C and E respectively.

Bio-Culture

Antibiotics, smoking, drinking alcohol and pathogenic bacteria (from food, drinks and airborne) reduce your friendly bacteria in your small intestines and colon. Bio-Culture contain 4 billion friendly live bacteria per capsules, protected within a stomach-acid resistant gel, to ensure maximum probiotic release into the intestines. Bio-Culture does not require refrigeration to maintain stability. Many probiotic products need the inconvenience of refrigeration, contain relatively few viable bacteria, or are inactivated by stomach acid before reaching the intestines.

Bio-Fish Oil

For a healthy heart, circulation and joints. Fish oil is a rich source of Omega 3 essential fatty acids, including DHA and EPA. Omega 3 essential fatty acids play important roles in the normal functioning of the cardiovascular and immune system; they are also required for the normal development and functioning of the brain.

Bio-Vitamin D3 - The Sunshine Vitamin

90% of the population are deficient of vitamin D in the UK during the winter. Lack of vitamin D show link with most illnesses, affects mental agility and is essential for bone and tooth growth.

See over for details on Coenzyme Q10.

Coenzyme Q10 (Bio-Quinone Q10)

At 80 your heart, lungs and spleen contain 45% less Q10 than at birth. Our liver converts Q10 from our food, but as we get older our liver becomes less efficient. The heart's the hardest working muscle in your body and therefore requires huge amounts of Q10 for its energy turnover. CoQ10 has shown in hospitals to be an effective treatment of cardiomyopathy and congestive heart failure. Q10 stimulates the liver. Also for high blood pressure and immune system stimulation.

High Cholesterol By taking statins for lowering cholesterol you are depleting your body of Q10, as they share the same biosynthetic pathway in the liver, therefore increasing the risk of coronary heart failure. It is therefore vital you take Q10 if you are taking statins.

Dental Problems Extra Q10 can prevent periodontal diseases, which affects the tissues that support the teeth and gums, accounting for more lost teeth in adulthood than any other dental problems. Recommend 100 mg/day.

Muscular Dystrophy Patients in scientific tests, treated with 100 mg/day Q10, showed a 50% significant improvement in increased exercise tolerance, reduced leg pain, better control of leg function and less fatigue.

Cancer Nearly all patients, who are diagnosed with cancer, are found to have only half the recommended amount of Q10 in their body.

Athletes Scientific studies conducted on top athletes, clearly show that Q10 supplements improve energy and endurance, while helping the athletes recuperate considerably faster after bouts of competition or hard training.

Alzheimer's Disease Healthy people in their 90's have shown naturally to have a high quantity of Q10, whereas people with Alzheimer's disease are very low in Q10.

Contra-indication There are no known interaction or contra-indication with Q10 and is vital to take when in hospital with all illnesses.

Pharma Nord's Bio-Quinone are in soya oil capsules, which have been clinically proven to be the quickest way for the body to absorb CoQ10.

VitTech Vitamin B12

Helps Keep the Body's Nerve & Blood Cells Healthy

It is well known that many vegetarians & vegans have now been found to have a deficiency of B12

VitTech™

Our own Vitamin B12 1000 mcg 90 tablets will help to convert energy into the body and to the functioning of your nervous system. The vitamin is important for normal breakdown of homocysteine in the blood. Homocysteine is an amino acid that increases the risk of circulatory problems if not rectified. In addition, vitamin B12 influences the body's cell division and contributes to normal red blood cell formation, helps convert energy into the body, contributes to reduced muscle weakness and fatigue

NEW

B12 deficiency effects the body in a variety of ways, some of the typical indications are:

- ♥ **Extreme tiredness**
- ♥ **A lack of energy**
- ♥ **Pins and needles (paraesthesia)**
- ♥ **A sore and red tongue**
- ♥ **Mouth ulcers**
- ♥ **Muscle weakness**
- ♥ **Disturbed vision**
- ♥ **Psychological problems, which may include depression and confusion**
- ♥ **Problems with memory, understanding and judgement**

Deficiency of B12 is also known as Folate Deficiency Anaemia and may cause the body to produce abnormally large red blood cells that cannot function properly.

One of the reasons leading to B12 or Folate Deficiency can be a lack of these vitamins in your diet - this is uncommon, but can happen if you have a vegan diet, follow a fad diet or have a generally poor diet for a long time. It's more common in older people, affecting around 1 in 10 people aged 75 or over and 1 in 20 people aged 65 to 74.

AlliTech Gel by Dulwich Health

Very Powerful Natural Antibiotic, Anti-Parasites

For open wounds, and sensitive intimate areas. Can be applied direct to skin.

Suitable for many problems: wounds, athlete's foot, fungal nails, nappy rash, rosacea and various skin problems. Can be used in intimate and sensitive areas. Apply up to 4 times a day.

Long term leg ulcers & wounds

Spray AlliTech Liquid direct on affected area and when dry, cover with AlliTech Gel. Try not to cover the leg ulcer or wounds. If going out, or if the ulcer or wound is weeping, cover with a light gauze to ensure the ulcer or wound gets continuous air. If you are fed up with being treated with long term leg ulcers or wounds with no results, why not try the above method, which has shown to be successful in over 80% of cases. If unsuccessful, don't forget we offer a full money back guarantee, so what have you got to lose?

Hospitals are putting AlliTech Gel on tubes etc. inserted into the body to prevent infections which present disinfectants are not coping with.

Seagreens Food Capsules

Arctic Seaweed, the Most Nutritious Plant in the World

This unique wild wrack seaweed grows in the crystal clear Arctic water among remote conservation islands over 60 miles from the coast of northern Norway. It is hand-harvested, air dried and immediately milled.

Grow short, thick and exceptionally nutritious due to the continuous turbulence of the ocean. The seaweed continues to grow so the marine environment is unharmed. Seagreens is Europe's only Soil Association certified product. It's pure seaweed and contains 3 different varieties of wrack, not found in any other seaweed product.

Two capsules equate to a large plateful of broccoli

Seagreens highlights:

- ♥ **Contains all the micro-nutrients missing from processed food and depleted soil. It contains over 100 vitamins, minerals, trace elements and amino acids and valuable compounds**
- ♥ **Just enough iodine to regulate the thyroid and metabolism. Lack of iodine often cause a feeling of fatigue**
- ♥ **Virtually fat-free and low in calories**
- ♥ **Not an instant therapy to treat symptoms. Rather it prevents them by taking it over a long period**
- ♥ **Strengthening immunity, resistance and recovery**
- ♥ **Improves skin, hair, nails and circulation**

Seagreens Capsules are Nature's richer source of organic iodine, which is of special interest to vegans and vegetarians who may intake less than half the RDA. Seagreens' capsules contain special wrack that has less iodine than kelp, so the daily intake at 1000 mg can be sustained indefinitely. Up to 6 kelp tablets would be needed to equal 2 capsules of Seagreens.

Prices:

Food capsules 500 mg suitable for Vegans

PT Rebounder

Most Effective, Safe & Easy Way to Exercise.

“Those who think they have no time for bodily exercise, will sooner or later have to find time for illness” Earl of Derby (1873)

The most efficient means of exercise is on a Rebounder, which is smaller and stiffer than a trampoline. You can rebound even if you are confined to a wheelchair. It is also very good if you have had injuries, or suffer from **arthritis, rheumatism, asthma, ME, diabetes, Multiple Sclerosis, cystic fibrosis, Parkinson’s disease, heart complaints** and **depression**. By rebounding you increase gravity by 25% both on the down and the up movement, revitalising your thymus (so you produce more T-cells to protect your body), lymph system, (which has no pump) and help to dispose of toxins from your body.

- ✓ A Rebounder helps circulation
- ✓ Boosts the lymphatic immune system
- ✓ Increases mobility
- ✓ Aids weight loss
- ✓ Relieves pain
- ✓ Reduces stress and tension
- ✓ Stimulates metabolism
- ✓ Improves eye-sight
- ✓ Helps build new energy
- ✓ Revitalises your life

It takes only minutes a day.

It’s easy. It’s fun. It’s safe and it works!

Six minutes on a Rebounder is equivalent to walking 3 miles. 10 minutes is equal to jogging for 30 minutes and you do not have to change into running gear, put up with bad weather and a 40% chance of damaging your knees.

Many fit people over 90 rebound 10 minutes every day. You can lose 300 calories in 6 minutes. It is the exercise you are most likely to keep up as it is fun and you can enjoy the exercises to music or watch TV.

Heart diseases Research in USA on men aged between 71 and 93 showed for each mile they walked, they reduced the risk of heart disease by 30%. So 6 minutes exercise on a Rebounder per day should greatly reduce risk of heart disease.

Excellent for increasing your heartbeat on a regular basis.

Cycling, Running & Rowing Machines How long did you keep it up on such expensive machines? Got bored? A Rebounder is much cheaper, so you can have one at home for the whole family to enjoy - a far more efficient and quicker way to exercise the whole body.

Right Equipment Even fit people can end up with aches and pains from using the wrong equipment. The PT Rebounder, is the only Rebounder, recommended by BBC Watchdog Health check. Built to professional specification and is the very best Rebounder, available. The PT is not springy. It has a firm self-centering mat which will give you a feeling of security. With 9” legs the PT will stand on its side when not in use and its special rubber feet protect your carpet.

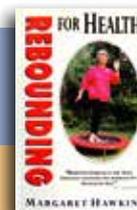

“Most efficient and effective form of exercise yet devised by man” (NASA)

Lo-Sterol

Help to Maintain a Healthy Cholesterol Level

Tests have shown that all volunteers taking the Lo-Sterol products for less than two months, lowered their cholesterol ratio by an average of 15% with no side effects. Some also recorded increased energy levels.

How does Lo-Sterol work?

Both the beta-sitosterol and Allisure® allicin in Lo-Sterol are thought to work by blocking the absorption of dietary and biliary cholesterol (cholesterol produced in the body) during the normal digestive process in the small intestine.

Alliscin is also capable of inhibiting the oxidation of cholesterol, which causes it to become 'sticky' and form plaque in artery walls. Being an antioxidant, alliscin prevents the oxidation and free radical damage, reducing the amount of deposited cholesterol and making it easier for it to be excreted from your body.

What is beta-sitosterol?

Beta-sitosterol is one of a number of plant-derived sterol compounds that alone and in combination with similar plant sterols, reduces blood cholesterol. Its close chemical resemblance to cholesterol enables it to block the absorption of cholesterol by competitive inhibition.

Numerous studies have documented the beneficial actions of phytosterols on cholesterol and LDL (bad cholesterol) concentrations, in daily doses of 250 mg to 600 mg. Lo-Sterol contains 250 mg of beta-sitosterol per capsule.

What is Allisure® allicin?

See full details under AlliTech. (Page 6)

Daily dose of Lo-Sterol

For people with moderately raised cholesterol the recommended dose is one capsule per day with meals. In those with a cholesterol level above 7.5 mmol/l, two or three capsules should be taken daily in divided doses. Lo-Sterol is unlikely to interfere with pharmaceutical medications, although if you are on existing prescription drugs, you may wish to check with your GP before use. Lo-Sterol may take a little longer to work than conventional medication, so a minimal three-month course is recommended before its effectiveness is assessed. Pregnant and breast feeding women should consult their doctor before taking.

Other benefits of Lo-Sterol

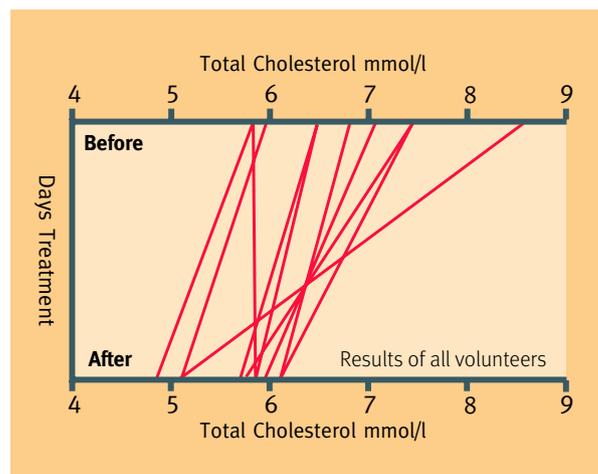

The active ingredients have other benefits too. They help modulate immune function, inflammation and pain levels through their effects on controlling cytokine production - substances involved in the inflammatory process. This modulation may also reduce the risk of being affected by microbes and help reduce allergic reactions and prostate enlargement.

Case study showing how the Lo-Sterol product reduced cholesterol levels by an average 15%.

Volunteers were recruited from all over the UK to take part in an open diet controlled study to show how effective the Lo-Sterol product was at reducing cholesterol naturally. All maintained their normal diet and exercise level throughout the study. Everyone had a raised cholesterol and had been advised to try and reduce the levels of their potential harmful blood fat.

Volunteers were asked to take up to 3 capsules every day for 42 days, when they were retested.

All volunteers who had a full fasting cholesterol test by their local GP showed a significant drop in LDL (bad) cholesterol.

LoSterol

Lo-Sterol capsules are suitable for vegetarians and vegans.

GoodHEART

Protect Your Heart

Cardiovascular disease (CVD) - disorder of the heart, blood vessels and blood circulation - is the main cause of death in the UK. Increasingly over the last 100 years it has become a larger and larger problem due to :

- ✓ High Blood Pressure
- ✓ Increased Cholesterol
- ✓ Smoking
- ✓ Obesity
- ✓ Lack of exercise
- ✓ Diabetes
- ✓ Poor circulation
- ✓ Stress
- ✓ Lack of nutrition

"I really was not expecting such a fast result. This combination is amazing in what it can do for your heart and cardiovascular system. I have never seen anything like this in all my years of practice - Probably even more importantly this incredible effect was maintained after 1 months treatment on just 2 capsules each day." Dr John Ogden.

CVD is something **everyone** needs to address.

Pendulums

If you wish to take dowsing seriously, you need more than a ring on a string. The best we have come across at any price, is this heavy nickel plated brass pendulum. Which can contain a 'witness'. Instead you may prefer the moonstone one.

Having been used for centuries to find things, like energy fields, objects and people.

Rolf Gordon always uses the Nickel plated ones, for his own dowsing.

Prices:

NEW Moonstone on a chain, 15 g, 45 mm long	£13.80
Nickel plated brass on a chain, 29 mm long 27 g.	£19.90

TOP by Rolf Gordon

The three main 'vitamins' you need when you are eating:

T is for time. Give yourself time to eat. Keep your food in your mouth as long as possible before swallowing, as your saliva is a major part of your digestive system.

If you eat under stress, your stomach can close down for up to two hours, so you do not benefit from your food.

O is for oxygen. Eat slowly so you can breathe more during eating and more oxygen enters your stomach, making calories burn better and thereby your body gets the maximum benefit from your food. If you do not burn calories properly, they will be stored as fat in your body.

If you eat too quickly and wish to burn calories better, take one OxyTech capsule with your main meal. This will give you plenty of extra oxygen.

P is for pleasure. Take pleasure in everything you eat, then your stomach will digest it better; even if you are eating something you know is a little bit 'naughty'! If you are on a diet, have that cream cake or what you long for, now and again. Then you are much more likely to keep to a strict diet.

You must feed your soul.

It is not what you eat; it is mainly how you eat it.

CANCER - the full menu

by Rolf Gordon

This book has been written to inform you of the 'full menu' when you speak to your cancer specialist, to ensure most suitable orthodox treatment is available to you. Also to let you know 'the full menu' regarding complementary remedies, to make sure your treatment is more successful and your cancer is less likely to return, or to minimise the chances of you getting cancer in the first place.

Each of the 25 main types of cancer plus children's and animal cancer can be read on their own

Rolf Gordon has found by being involved with more than 5,000 cancer cases during the last 30 years that the individuals were all badly affected by the BIG FOUR which very few doctors investigate.

All four can easily be put right quickly with very good results.

The book is written in an easy to read language in great detail about symptoms, research, latest orthodox treatment and how to ensure a higher success rate. There are also chapters on chemotherapy, radiotherapy, surgery, lasers, nutrition and how your immune system works. Also what to take to hospital, eliminate MRSA quickly, about finance, insurance and how to help friends with cancer etc.

"This is the most comprehensive and informative book written on cancer. I strongly recommend it to anybody, whether or not they have cancer"

Dr. Patrick Kingsley M.B., B.S., M.R.C.S., L.R.C.P., F.A.A.E.M., D.A., D.Obst., R.C.O.G. who has dealt with thousands of cancer patients during 30 years in practice.

Are You Sleeping In A Safe Place?

Book by Rolf Gordon Updated May. 2021

Rolf Gordon's son was one of over 150,000 people in the UK to die of cancer in 1985. This led him to thoroughly investigate the claim that Geopathic Stress is a major factor contributing to cancer. "Are You Sleeping In A Safe Place?" was the first publication in English to present the evidence and substantiate the claim first made over 85 years ago:

"One is unlikely to develop cancer unless one has slept or stayed for long periods in Geopathic Stress places"

This book fully explains how to detect the symptoms associated with exposure to Geopathic Stress and describes how to locate the stress with a simple home-made device made in minutes and costing nothing - AND shows you how to find the best possible places to sleep.

Rolf tells of his experiences after having dowsed tens of thousands of people, and buildings for Geopathic Stress.

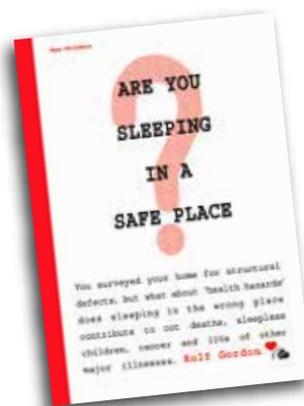

The book also explains the Muscle Test and the very effective yet simple method of dowsing from dials.

Rolf Gordon has now updated this book for the 7th time over 25 years, incorporating much new information., the book tells you how you can quickly check the state of every part of your body. A large pull-out showing where all your organs, glands and other parts of your body are.

You and your family and friends could be affected by Geopathic Stress, so you owe it to yourself to read this book .

The most comprehensive book written on the subject.
